

Withdrawal from Case

Dear: _____
Name of Client

Date

I am writing to inform you that I am withdrawing from professional attendance of your wellness care, because you have refused to follow my professional advice and treatment program.

I suggest you immediately select a healthcare practitioner of your choice to render the continued care that your condition demands. You may contact me for names of doctors or other wellness practitioners in your area that I feel are competent. In the interim, I am available to you for professional services for a reasonable period following your receipt of this letter, but not beyond 14 days, since two weeks should allow you sufficient time to choose another wellness practitioner.

With your approval and written authorization, I will make available to any doctor or wellness practitioner you choose the pertinent records of your care relative to the treatment you received at this office.

Very truly yours,

Name of Practitioner
